Dear Mr. Jackson:

Please be advised that on Wednesday, August 7, 1991, we will be holding a meeting of the Natural Resource Trustees at the U. S. Department of Energy (DOE) Rocky Flats Plant (RFP). Note that this meeting has been rescheduled from the previous date of July 8, 1991. Also, you should have received a Natural Resource Trustee notification letter from DOE, dated May 31, 1991.

There are several purposes for this meeting. First, it will provide an opportunity for all the trustees to meet one another. Second, it will officially pave the way for the trustees to participate in the Superfund process and, hopefully, address potential environmental concerns in a timely manner. Third, an overview of the Natural Resource Damage Assessment Regulations along with the currently proposed revisions will be given by a representative of the U. S. Department of the Interior. Fourth, the DOE wishes to present their strategy for complying with the Natural Resource Damage Assessment Regulations (43CFR11). Fifth, points of contact and areas of responsibility will, hopefully, be established. Finally, a timetable for future natural resource trustee meetings will be discussed. For a detailed description of the day's activities, please refer to the enclosed agenda.

The meeting will be held at 12:30 P.M. in the T130F conference room and will last until approximately 4:30 P.M..

In addition to the afternoon meeting, a tour of the RFP will be given in the morning from 8:15 A.M. to 11:45 P.M.. In order to attend the tour, it will be necessary for you to contact Bruce Thatcher of my staff at 966-3532 with your name and the names of your staff in addition to social security numbers. We request that this information be provided no later than August 2, 1991. This information is required by plant security and access to the plant and buffer zone cannot be obtained otherwise.

Please note that the tour will commence from the West security gate east of State Highway 93 at 8:15 A.M. You should plan to arrive at the West gate of the RFP at 8:00 A.M. in order to secure the necessary badges.

If you have any questions regarding the meeting please contact Bruce Thatcher of my staff at 966-3532. In addition, if you are unable to attend the morning tour but will be attending the afternoon meeting, please contact Mr. Thatcher and give him your name or that of your representative. Again, this information is required for plant security.
